Chet & Co.

Chet Dickenson, with a cast of thousands, (well, ok, three or four!) will entertain you and your group!

FAMILY ORIENTED

This family oriented ventriloquist brings a message with laughter, creating a memorable moment for you and your group to remember for years to come.

Chet has been bringing his unique style of communication and entertainment into areas as diverse as volunteer banquets, youth ministries, even prisons and juvenile institutions.

VERSATILE

Chet has even performed in *Las Vegas*, at the *Harrah's Hotel and Casino*! It was in front of the toughest audience he ever faced. Ok, ok, it was at the International Ventriloquist Association (IVA) Fest, in front of his fellow vents. But, what could be tougher? Three-year-old kids? Well, he's done that, too!

Whether you are looking for good, clean fun or an entertainer with a message, we aim to deliver.

PERSONAL TOUCH

Chet can tailor the performance to reflect the type of show you desire, whether for youth, adults, a mixed audience, or special groups.

There are some restrictions on audience types, especially for youth shows. Experience has shown that "all ages" group, with kids from two to late teens, present special challenges. We can work it out to do multiple shows with these groups separated into compatible age groupings.

ASSOCIATIONS

Chet is a member of the International Ventriloquist Association (IVA) and the North American Association of Ventriloquists (NAAV). However, he can't speak for the rest of the crew!

OUR CAST OF CHARACTERS!

(and characters, they are!)

Thomas, our resident redheaded teen, with the attitude to prove it! Thomas is popular with everyone from 2 to 102. (*Thomas is pictured throughout this brochure at his request!*)

Clarence isn't like the rest of us. While he isn't a "dummy," he does think differently than the rest of the world.

Frank Bacon, (not to be confused with Francis Bacon the poet), is our pig that doesn't like bacon, or football!

Wrinkles. He's the dog with a gentle spirit and old-fashioned wisdom.
